Kasasa Named to 2019 IDC FinTech Rankings for Sixth Consecutive Year

Annual ranking highlights top global providers of financial technology

AUSTIN, Texas, Sept. 24, 2019 – Kasasa®, an award-winning financial technology and marketing provider, announced it has been named to the 2019 IDC FinTech Rankings, the most comprehensive vendor ranking within the financial services industry.

The annual IDC Financial Insights FinTech Rankings, based on 2018 calendar year revenues, honors companies that are among the top financial technology providers worldwide. This year Kasasa was ranked No. 76, rising six spots from No. 82 last year. This is the sixth consecutive year Kasasa has been recognized on the prestigious list.

“Being named in the IDC FinTech Rankings is a significant accomplishment, demonstrating a provider’s commitment to the success of its financial institution clients,” states Marc DeCastro, Research Director at IDC Financial Insights. “The IDC Fintech Rankings, now in its 16th year, is the global standard list of fintech providers to the industry, and we congratulate the 2019 winners.”

As consumer expectations increase, so do banks’ and credit unions’ demand for innovative banking products. Kasasa is committed to helping community financial institutions meet consumer needs through innovative products that deliver great value. Additionally, Kasasa accounts are the only nationally recognized products that allow community financial institutions to maintain their unique brand identity.

“Moving up the IDC FinTech Rankings list year after year is a testament to the hard work we put into not only equipping customers with top-notch products and services, but also providing support and research that helps banking leaders get engaged and empower the local financial institutions at the heart of their communities,” said Gabriel Krajicek, CEO of Kasasa.

This year, Kasasa announced it has become the fourth largest banking branch network in the nation, with more than 3,500 community financial institution branches partnered with the company. Kasasa is available in all 50 states and offers community banks and credit unions disruptive retail banking products, services and platforms that empower them to take back market share where it belongs: in the hands of the local economies.

“As the fight for deposits gets tougher, our mission to help community banks and credit unions take back banking grows stronger. Competition from megabanks is fierce, but by acting with one big, collective voice, local financial institutions can regain their fair share of the market,” Krajicek added.
